

S5 Table (Vigne et al)

List and description of the 11 landmarks used in this paper for the geometric morphometric analyses of the cat mandibles. A visual representation of the landmarks can be found in S5 Fig. J.-D. Vigne & A. Evin

N°	Description
----	-------------

- | | |
|----|--|
| 1 | Anterior extremity of the alveolus of P/3 |
| 2 | Middle point between the alveolus of P/3 and P/4 |
| 3 | Posterior extremity of the alveolus of P/4 |
| 4 | Posterior extremity of the alveolus of the M/1 |
| 5 | Maximum curvature of the coronoid process |
| 6 | Deepest point of the curvature of the mandibular incisure |
| 7 | Maximum curvature of the articulation |
| 8 | Most ventral point of the dorsal incisure of the angular process |
| 9 | Most posterior termination of the anterior chin foramen |
| 10 | Most anterior point of the alveolus of the canine |
| 11 | Most posterior extremity of the alveolus of the canine |
